

TMT EXPO

02-04

OCTOBER

2018

TMT EXPO - the organization of the international B2B exhibition for textile machinery and technologies is under way. The organizers from Inter Expo Center have the ambition to become the largest professional forum for the textile industry in South East Europe.

The range of products and services at **TMT EXPO** covers all stages of the process of creating textile products - from fiber production, designing, cutting and CAD / CAM, through production preparation, up to the technological production itself.

In addition, the following sectors will be represented: textile logistics, pressing, ironing, finishing, testing, internal material flow, quality assurance, laundry and dry cleaning equipment.

In parallel to TMT EXPO, the 7th edition of COPI'S-the International Exhibition for Printing and Advertising Communications, will take place, in which the topic of the large-format digital printing on textiles and personalized design has become more and more popular in recent years. This will lead to synergy for those visiting both exhibitions.

PRODUCT GROUPS

- ✓ Design, product development, automation technology
- ✓ Preparation and organization of production
- ✓ Manufacturers and importers of natural and synthetic fibers
- ✓ Creation and distribution of designs, graphics, prints (drawings)
- ✓ Printed Textile Technologies
- ✓ Cutting and automation technologies
- ✓ Mixing, tuning and preparation for production
- ✓ Spinning machines
- ✓ Textile machines
- ✓ Knitted machines
- ✓ Finishing textile processes
- ✓ Knitting technologies
- ✓ Embroidery technologies
- ✓ Stitching, joining and fastening technologies, automation technologies
- ✓ Sewing, binding and fastening materials, technical apparel accessories, household and home textiles
- ✓ Product processing and finishing
- ✓ Laboratory analysis and testing
- ✓ Quality Assurance
- ✓ Recycling of materials
- ✓ Internal flow of materials
- ✓ Textile logistics
- ✓ Information technology and specialized software
- ✓ Services, consulting and training
- ✓ Media
- ✓ Research, development and education

VISITORS TARGET GROUPS

- ✓ Bulgarian and foreign investors, entrepreneurs and start-ups in the textile industry
- ✓ wholesale / retail sectors
- ✓ Manufacturers of fabrics
- ✓ Manufacturers of non-woven textiles
- ✓ Processors of textile and flexible materials:
- ✓ Manufacturers of functional clothing
- ✓ Manufacturers of sporting goods and outdoor equipment
- ✓ Upholstery manufacturers for home, office, car
- ✓ Manufacturers of safety equipment
- ✓ Home textile manufacturers - bed linen, towels, terry towelling, tablecloths
- ✓ Manufacturers of carpets, flooring
- ✓ Manufacturers of household and home textiles
- ✓ Manufacturers from the automotive and aviation industry
- ✓ Filter and packaging manufacturers
- ✓ Manufacturers of textiles, safety ropes and networks for transportation and warehousing activities
- ✓ Manufacturers in leather and haberdashery sectors
- ✓ Services sector
- ✓ Distributors and traders, engineers, mechanics, technologists
- ✓ Research institutes and universities, vocational high schools for clothing and textiles
